

My role as a gaffer sees me working on various projects ranging from short and feature films to music promos and commercials but also live broadcasts and fashion and documentaries. I also work regularly as a light designer/ desk operator.

My strengths include leading a team, communicating and working with other departments and from my previous position as a camera operator and self-shooter, a great understanding of the D.O.P's lighting needs with the ability to focus on necessary details.

GAFFER
